

BobsFunds Intermediate Treasury

Statement of Additional Information BFITT

Effective Date: January 1, 2026 | This SAI is not a Prospectus.

This Statement of Additional Information supplements the information contained in the Fund's Prospectus. This SAI should be read in conjunction with the Prospectus. A copy of the Prospectus may be obtained free of charge by contacting Bob's Mutual Funds, Inc.

Fund Organization

The BobsFunds Intermediate Treasury (the "Fund") is a series of Bob's Mutual Funds Trust (the "Trust"), a Delaware statutory trust organized on March 1, 2008. The Trust is registered with the Securities and Exchange Commission ("SEC") as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund commenced operations in January 2010.

The Fund offers a single class of shares. Each share represents an equal, proportionate interest in the assets of the Fund, subject to the liabilities of the Fund.

Investment Policies and Restrictions

The following investment restrictions are fundamental policies of the Fund, which may not be changed without a vote of a majority of the outstanding voting securities of the Fund (as defined in the 1940 Act):

1. The Fund may not purchase securities of any issuer (other than U.S. Government obligations) if, as a result, more than 5% of the Fund's total assets would be invested in the securities of that issuer.
2. The Fund may not borrow money, except from banks for temporary purposes in an amount not to exceed 10% of the Fund's total net assets.
3. The Fund may not underwrite securities of other issuers except to the extent that in connection with the sale or disposition of portfolio securities, it may be deemed to be an underwriter.
4. The Fund may not invest in real estate directly, although it may invest in securities issued by companies that invest in real estate or real estate interests (except as otherwise restricted).
5. The Fund may not issue senior securities (as defined in the 1940 Act), except as permitted by the 1940 Act, any rules thereunder, or any orders of the SEC.

Management of the Fund

The Board of Trustees of the Trust (the "Board") oversees the management and affairs of the Fund. The Board has overall responsibility for the Trust, including establishing general policies of the Trust and supervising and reviewing the actions of the Trust's officers.

The Advisor is Bob's Mutual Funds, Inc., a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940. The Advisor provides investment advisory services to the Fund pursuant to an Investment Advisory Agreement with the Trust.

For its services, the Advisor receives a fee from the Fund at the annual rate of 0.04% of the Fund's average daily net assets. This fee covers all investment management expenses and the majority of operating expenses; the Fund bears no other ongoing expenses except as described herein.

Distribution of Fund Shares

Bob's Mutual Funds Distributors, Inc. (the "Distributor"), a wholly-owned subsidiary of the Advisor, serves as the principal underwriter and distributor of the Fund's shares. The Fund has not adopted a distribution plan under Rule 12b-1 of the 1940 Act and pays no 12b-1 fees.

Shares are sold at NAV with no sales load. The minimum initial investment is \$1. Shares may be redeemed at NAV on any business day.

Tax Information

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). As a regulated investment company, the Fund generally will not be subject to U.S. federal income tax on income and gains that it distributes to shareholders, provided that it distributes at least 90% of its investment company taxable income.

The Fund distributes income to shareholders on a monthly basis. Capital gains, if any, are distributed annually. Distributions may be in the form of additional shares or cash, at the shareholder's election.

Securities Lending

The Fund may lend portfolio securities to broker-dealers and other financial institutions. Securities lending allows the Fund to receive income from the temporary loan of securities. The Fund will receive collateral equal to at least 102% of the market value of loaned securities (105% for non-U.S. securities). The income earned from securities lending will partially offset the Fund's expenses.

Financial Statements

The Fund's financial statements, including the Schedule of Investments, are incorporated herein by reference from the Fund's Annual Report for the fiscal year ended December 31, 2025. A copy of the Annual Report accompanies this SAI and is available free of charge upon request.
