Investment Objective

The BobsFunds Energy Index seeks to track the performance of the MSCI US IMI Energy 25/50, providing cost-effective exposure to the energy segment of the market.

Fees and Expenses

The Fund's annual expense ratio is 0.09%, one of the lowest in its category. There are no sales loads, redemption fees, or 12b-1 distribution fees.

Principal Risks

Risk level: High. An investment in this Fund involves market risk, index tracking risk, and — for equity funds — the possibility of losing money. See the full Prospectus for a complete description of risks.

How to Buy and Sell

Minimum investment: \$1. Shares are purchased and redeemed at daily NAV. No transaction fees when purchased directly through Bob's Mutual Funds.

Tax Information

Distributions are generally taxable as ordinary income or capital gains. The Fund distributes income quarterly. Consider using a tax-advantaged account (IRA, 401(k)) to defer taxes.
